

ASHPAN RASKAR

EXPERIENCE

Rogers TV: Camera and Audio Operator

July - November 2015

Helped with filming Little League Sports and CAF TV program for the Rogers TV News Channel. Gained experience with advanced recording video cameras, handling audio technicalities, and using graphics for TV channels.

Tech Retreat Hackathon: Competitor

August 2015

Attended first hackathon with a friend and learned many new skills. The project created was called Throwback Hack. The idea was to allow people to relive their childhood. This was done simply by asking a few questions such as age, name, and ethnicity, then using some API's, pictures, videos, and songs from their childhood would be outputted for the user to relive through.

TriFun Kids Triathlon: Bike Assistant

Summer 2014-15

Provided support to younger children aged 3 - 13 during the race. The aid included providing directions, helping participants on and off their bikes, escorting their bikes to a bike rack, and any other possible aid to give to the children to make the Triathlon better.

Ecosource

April 2015

Helped educate the public about the reason why one should use green energy and how necessary it is for today's economy and environment.

First Lego League: Team Leader, Head Programmer

2013 - 2014

Co-lead Scinadoes, a team of 9 people to create a robot and a project to solve a natural disaster. Was also one of the head programmer to create multiple autonomous programs for the robot to complete specified missions.

First Lego League: Team Member, Programmer

2012 - 2013

Acted as a team player in IsoBreakers. Learned how to program a robot and understood the missions needed to be performed. Gained many teamwork and communication skills.
